If a student will need special considerations or accommodations, a parent/guardian must specifically request the special considerations sought or accommodations needed and must provide supporting documentation (such as an IEP or 504 plan). It would be discriminatory for the District to assume that special education considerations or accommodations are necessary without first receiving such a request and appropriate documentation. Please direct requests for special considerations to Peter Castillo at (720) 424-0204. The admission of an identified student is contingent upon the determination of an IEP team that the student can receive a free and appropriate public education in the least restrictive environment at the school.
